"I couldn't be happier with the host hotels for this coming showcase," says Tracy Reardon, Director of Spring Training Operations. "Some are returning from last year and others are a blast from the past. We have come to love Plant City and the entire Tampa Bay area as a second home over the last 12 years and are always thrilled to partner with such amazing locations for the event. There are varied price points and since we were able to directly work with the hotels, the process for teams to get their reservations handled should be much easier. I'm looking forward to another year down in Florida with the staff, the teams and the fans!"
